

Public Service

Annual Report | 2008-2009

Government of Nunavut | Human Resources

2008-2009 PUBLIC SERVICE HIGHLIGHTS

Sivuliqtiksat Graduates, June 2008

Cultural Orientation Program, June 2008

Civil Administration, Investigation Techniques Course, Rankin Inlet, October 2008

Nunavut Advanced Management Diploma, Graduation, Rankin Inlet, 2009

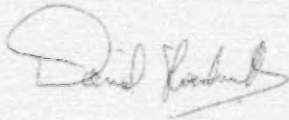

Long Term Service Awards, Iqaluit, May 2008

In accordance with Section 3(2) of the *Public Service Act*, I have the honour of submitting the Public Service Annual Report for the period April 1, 2008 to March 31, 2009.

Respectfully Submitted,

A handwritten signature in dark ink, appearing to read 'Daniel Shewchuk', with a stylized flourish at the end.

The Honourable Daniel Shewchuk
Minister of Human Resources

Note

Statistics contained in this report are for employees of the ten Government of Nunavut (GN) departments, Nunavut Arctic College, Nunavut Housing Corporation, and the Office of the Legislative Assembly. Statistics do not include employees of the Qulliq Energy Corporation or other GN boards/agencies unless specified.

1 Message From the Minister

I am pleased to present the 2008-2009 Public Service Annual Report. This report provides information on the management and direction of the public service in Nunavut and has been prepared in accordance with the legislative authority of the *Public Service Act*, the guiding principles of *Pinasuaqtavut*, and our commitment to Article 23 of the *Nunavut Land Claims Agreement*.

This past year has been both a busy and productive year for the public service. This report highlights some of the achievements in the public service and offers varied labour force statistical information.

Work is continuing on the development of a Code of Values and Ethics for Nunavut's public service, which will reflect Inuit values. A comprehensive developmental plan has been launched for revitalization of the *Public Service Act and Regulations* to ensure best practices in human resources management.

In 2008-09, for the first time, the Government of Nunavut was able to offer the Nunavut Advanced Management Diploma program in the Kivalliq region. Having faculty from Saint Mary's University travel to Rankin Inlet to deliver ten modules allowed our participants to study close to home and take "hands-on" managerial tools back to their workplace.

In an effort to improve client service, the Job Evaluation Division has upgraded the tracking database with assistance from our co-workers in our Human Resources Information and Payroll Systems Division. This enables the division to respond daily to inquiries regarding the status of submitted paper work and to generate quarterly reports for client departments.

The Government of Nunavut recognizes public service employees for dedicated service and the contribution they make during the course of their employment for anniversaries of 5, 10, 15, 20, 25, 30, and 35 years of continuous service. I am pleased to announce that in the 2008/2009 Awards Ceremonies, 587 employees received awards (237 Iqaluit employees, 135 Kivalliq region employees, 83 Kitikmeot region employees, and 132 Baffin region employees).

Through the development of performance Management guidelines, the commitment to continuously improving the public service is demonstrated. To address the efficiency and

effectiveness of our public service training sessions are provided to stakeholders in the use of the best staffing practices.

The Department of Human Resources recognizes the importance of cultural orientation in training employees to clearly identify and implement practical ways to incorporate Inuit values in the workplace. Cultural orientation sessions were delivered in conjunction with employee orientation sessions.

In the spirit of Piliriqatigiinni (working together for a common cause), a new collective agreement has been negotiated with the Nunavut Employees Union (NEU). To celebrate this milestone, a successful signing ceremony was held in the great hall of the Nunavut Legislative Assembly.

As part of the ratification of the collective agreement a continuous service bonus was paid to Government of Nunavut employees in December 2008. This represented a retention initiative to recognize long continuous service with the government of Nunavut.

Significant accomplishments have been achieved in the past year. The Department of Human Resources continues to build on our successes due to the dedication of all public servants. Through a professional and dedicated public service, the Government of Nunavut will continue to provide Nunavummiut with the highest quality programs and services.

2 Inuit Employment Initiatives

Under *Article 23* of the *Nunavut Land Claims Agreement* (NLCA), the Government of Nunavut (GN) is obligated to achieve a workforce that is representative of the population it serves across all occupational categories and to identify supporting human resources practices and initiatives to achieve those goals.

Integral to the implementation of the Inuit Employment Plan (IEP), the Department of Human Resources publishes a quarterly report called *Towards a Representative Public Service* (TRPS) issued on a quarterly bases. The March 31, 2009 TRPS report indicates that overall, beneficiary representation in the GN increased to 52% in March 2009 from 51% in March 2008. Beneficiary representation was highest in the administrative support and paraprofessional categories. The middle management category experienced a 1% increase. There was no percentage change in the professional employment category. Additional details on beneficiary representation in the public service can be found in the Workforce Profile section of this report and online under the quarterly reports "*Towards a Representative Public Service*."

The initiatives described below identify the GN's commitment to building an effective and functional public service that is representative and responsive to the people it serves.

Inuit Employment Plan

The Inuit Employment Plan (IEP) was developed by the Government of Nunavut to fulfill its obligation under *Article 23* of the *Nunavut Land Claims Agreement*. The plan is designed to increase Inuit Beneficiary representation in the public service. The objective of the plan is to develop a public service representative of Nunavut's population across all occupational categories. The IEP also aims to ensure that human resources policies and practices meet the needs of Inuit employees.

The Inuit Employment Planning division, Department of Human Resources, provides support to all GN departments and agencies in fulfilling their obligations under *Article 23* of the *NLCA*. The division is responsible for providing human resource planning and direction on initiatives aimed at increasing and maintaining Inuit employment to a representative level. With the guidance of the Inuit Employment Planning division, government departments have incorporated GN-wide initiatives into the business planning process.

Priority Hiring

The Priority Hiring Policy plays an important role in ensuring that the Government of Nunavut fulfills its obligation under Article 23 of the *Nunavut Land Claims Agreement*. The policy gives priority consideration in the recruitment and selection of GN employees to Inuit beneficiaries. The Priority Hiring Policy is applied to all GN job competitions across Nunavut in all occupational categories.

Beneficiaries who apply for employment with the GN are considered before all other applicants. If a beneficiary meets the qualifications for the position, which is determined during the screening process, they will be interviewed for the position. If they are successful during the interview process, the applicant is hired. If a qualified beneficiary applicant is not identified during the screening or interview process, non-beneficiary candidates are then considered for the position. Job opportunities are broadcast on local radio and cable television, which is a more effective medium in geographically remote communities. In addition, the standard methods of job postings in newspapers, bulletin boards, job sites, and the government website continue to be used.

To further demonstrate the GN's commitment to increasing Inuit employment in the workplace, departments are increasingly offering term positions to successful non-beneficiary candidates to ensure that future employment opportunities are available to beneficiaries.

An interim review of the Priority Hiring Policy was conducted in the fall of 2007. The Policy has been extended to March of 2010.

Summer Student Employment Equity Program

The Summer Student Employment Equity Program (SSEEP) is designed to provide opportunities for secondary and post secondary Nunavummiut students to gain work experience with the GN. The major objectives of this program are to expose students to a variety of careers available within the public service and to encourage them to consider the GN as the employer of choice after graduation. Consequently, this program will provide employment opportunities that will enrich their academic programs, help fund their education and encourage students to complete their studies, develop skills and improve employability after graduation.

The SSEEP program includes orientation, mentorship, and evaluation components, which will ensure that students are provided with the necessary support and development to gain meaningful work experience. The program also attempts to balance the priority hiring of beneficiary students with the needs of non-beneficiary students.

The 2008-09 SSEEP saw a total of 128 students participate in the program (75% beneficiary). In addition to the consistent application of the Priority Hiring Policy,

priority placement is given to Nunavut high school and college students, as well as Nunavummiut who are studying in post secondary institutions outside of the territory.

Summer Student Employment Equity Program

FY	# Students	# Beneficiary	% Beneficiary

2001-02	71	51	72%
TOTAL	1138	854	75%

“Sivuliqtiksat” – Internship Program

Sivuliqtiksat is a GN internship program that is designed to provide development opportunities for beneficiaries to take on leadership positions (Manager/Director level) and specialized positions that are unique to a department. This focus assists the GN in filling gaps in the senior, middle, professional and paraprofessional occupational categories. In 2008-09, the Department of Human Resources supported a total of 16 positions in the program, which is open only to beneficiaries of the *NLCA*.

Since the program’s inception in January 2003, a total of 37 interns have been hired and 12 have graduated from the program, 7 of which are still working in their target positions. At the end of March 2009, 7 interns were in the program and an additional 9 interns will be hired in 2009-10.

Sivuliqtiksat interns complete their customized learning plan objectives through on-the-job training, completion of distance education courses, and participation in formal classroom learning. Orientation, mentoring, and work exchange assignments are also components of this program. Each intern is assigned a designated mentor for the duration of the program. Interns who successfully complete the program are appointed to their target positions.

3. Human Resources Legislative and Policy Framework

The *Public Service Act* (PSA) guides the management and direction of the public service for the GN. The purpose of the Act is to describe the authorities and the rules for the appointment, direction, discipline, dismissal, terms and conditions of employment and collective bargaining for GN employees.

Public Service Act Review

The current *PSA* was carried forward from the Government of the Northwest Territories (GNWT), with the exception of a few amendments. As such, a modernization on the *PSA* is necessary to align the statute to current legislative and collective bargaining realities, including an up to date list of agencies and organizations that are subject to its provisions. Included with the *PSA* renewal, will be inclusion of references to Article 23 of the *NLCA* with respect to Inuit employment and the Priority Hiring Policy, the incorporation of Inuit societal values and their application to the management of the public service. A new legislative proposal to develop the *PSA* has been prepared and has been submitted to Maligaksanik Qimirrujiit for review and approval.

Interim Public Service Regulations

A Working Group from the Departments of Human Resources and Justice has developed interim changes to the Public Service Regulations. The modifications were made to reflect changes to Nunavut practices since 1999, including annual leave, acting pay, sick leave, educational leave, and revised delegations of authority.

The Amendments to the *Public Service Act Regulations* are expected to be approved by Cabinet in May 2009.

Updated Human Resources Manual

The Directives comprising the Human Resources Manual were transferred from the GNWT in 1999. Over the past 10 years, as the terms and conditions of employees have changed, so have the Directives. The Department of Human Resources continues to update, revise, and develop directives to the Human Resources Manual as terms and conditions of employment change and best practices are developed. The manual serves as a valuable resource that includes human resources policies, guidelines, and statutes.

4. Human Resources Development

The Government of Nunavut (GN) is committed to developing a competent and qualified public service, representative of the population it serves, through effective and efficient human resource development and management. In keeping with this commitment, the Department of Human Resources places great emphasis on recruiting, retaining, developing, and recognizing GN employees.

Recruitment

Staffing Capacity

Staffing capacity remains a challenge for the GN. As of March 2009, there were 3837 full time positions within the GN and of these positions, 2950 were filled. Overall staffing capacity decreased from 78% in March 2008 to 77% in March 2009. These statistics include employees of the Qulliq Energy Corporation and other GN boards/agencies unless otherwise specified.

Public Service Annual Report 2008-09

The following tables present a 2-year staffing capacity summary by community, department, and occupational category.

Staffing

The Department of Human Resources facilitates job competitions for all other GN departments to ensure a transparent and equitable hiring process. Staffing authority has been delegated by the Minister of Human Resources to the Department of Health & Social Services, to recruit specialized health positions, and to Nunavut Arctic College, for all college positions. The Department of Education is responsible for staffing teaching positions, as this group of employee's falls under the *Education Act*.

Job Competitions

For the 2008-09 fiscal-year, the Department of Human Resources held 480¹ job competitions. This number does not include casual positions, direct appointments, and transfer assignments.

A total of 6172 applications were received for the 480¹ advertised positions in 2008-09, compared to 5509 applicants for 644 advertised positions in 2007-08. In 2008-09, of the positions advertised, 306 positions were filled, compared to 284 positions in 2007-08. A total of 114² positions were cancelled or re-advertised in 2007-08, compared to 156 positions in 2007-08. The remaining competitions were not completed by the end of the fiscal year.

A breakdown of job applications and hires by gender and beneficiary status is contained below.

¹ Total job competitions represent statistics from all regions, with 6 months of completion data from Igloolik.

² Total cancellations include all regions except for Igloolik data not available at time of printing.

Casual Employment

The GN hires casual employees for temporary assignments within departments. For example, casual employees are hired to work on special projects, to assist with a high volume of work, or to fill in for employees on leave. The Department of Human Resources in Iqaluit has two full time staff dedicated to casual employment. Departments plan in advance for the hiring of casual employees based on anticipated workload and staff absences. The Priority Hire Policy is applied when staffing casual positions.

As at March 31st 2009, a total of 512 casuals were employed with the GN (58% were beneficiaries).

¹ Total job competitions represent statistics from all regions, with 6 months of completion data from Igloolik.

Direct Appointments

The Government of Nunavut is committed to staffing positions through the competition process. However, there are circumstances where appointments without competition are both necessary and justified. A direct appointment is an appointment to a position within the GN that is not filled through the competitive process. Direct appointments are mainly used to achieve a qualified and representative public service. They are also used in situations where the regular recruitment process has been unsuccessful in filling hard-to-staff positions. Direct appointments are initiated by departments, reviewed and recommended by the Department of Human Resources, and ultimately approved by Cabinet.

During 2008-09, Cabinet approved a total of 70 direct appointments. Of the 70 direct appointments approved, 69 (99%) were for beneficiaries.

Direct Appointments by Fiscal Year

Employee Retention

The retention rate for GN employees has increased significantly since 2000 when it stood at 69%. Since that time, the retention rate continued to increase and remained at 84% in both 2005-06 and 2006-07, however the retention rate for 2007-08 dropped to 80% and in 2008-09 increased to 82%. While the retention rate has significantly increased since 2000, maintaining and increasing capacity remains a challenge for the GN. Capacity and retention are important issues throughout all jurisdictions in Canada. The retention of employees is a GN priority.

Employee Recognition

The Government of Nunavut recognizes the contribution of employees who have served long periods of uninterrupted employment within the public service. Long term service award ceremonies are held once every two years to acknowledge the ongoing dedication to GN employees. In 2008/2009 a total of 587 employees received long term service awards for 5, 10, 15, 20, 25, 30, and 35 years of continuous service.

Employee Development

The Department of Human Resources coordinates the delivery of courses and training to improve the skill levels and knowledge base of GN employees. Ongoing training and development of employees is critical to building a strong and dedicated public service that is responsive to the needs of Nunavummiut.

The Department of Human Resources' Training & Development division is responsible for researching, designing, and delivering programs that address the general training needs of employees across the GN. The division works in partnership with all other departments to identify and respond to priority training needs for GN employees and to ensure that programs are relevant, cost effective, and of high quality.

(Please note that participant statistics contained in this section of the report are not necessarily reflective of individual employee participation rates. For example, one employee may have registered for more than 1 course offered as part of a specific program. As such, this one employee's participation would be reflected multiple times in the aggregate training participation data.)

Nunavut Advanced Management Program

In 2008-2009, the Department of Human Resources partnered with Saint Mary's University to deliver a 10-module management training program for employees in the Kivalliq Region. This was the first time the Nunavut Advanced Management Program was delivered outside of the capital. Faculty from Saint Mary's University travelled to Rankin Inlet each month to deliver a 2.5-day module. Modules covered such areas as business communication, program evaluation, leadership, and budgeting. Participants must complete 8 of 10 modules to complete the program. Upon completion, graduates received a diploma from Saint Mary's University. A unique feature of this program is that it gives participants the opportunity to learn from and network with other employees and to participate in a management program "closer to home".

A total of 22 Government of Nunavut employees participated in the 2008-09 program delivery, 20 of whom graduated in June 2009. 60% of the graduates were beneficiaries. A total of 56 GN employees (80% beneficiaries) have graduated from the program since 2004-05.

Employee Orientation

The Department of Human Resources offers employee and cultural orientation sessions in communities across the territory on a regular basis. These sessions are designed to provide employees with general information about working for the GN and to complement the department/job specific orientation initiatives of each GN department. In 2008-09, a total of 155 employees attended one of 13 different orientation sessions provided in seven different communities across Nunavut.

Cultural Orientation

The Department of Human Resources recognizes the importance of providing cultural orientation when training employees, in order to clearly identify and implement practical ways to incorporate Inuit values into the workplace.

The Department of Human Resources offers assistance to requesting departments and customizes Cultural Orientation sessions focused on Inuit principles and activities tailored to the specific needs of the department's employees.

Cultural Orientation sessions are delivered in conjunction with the Employee Orientation sessions. The orientations may take place in a classroom setting or through seasonal one-day, on-the-land sessions to introduce employees to:

- The History of Nunavut
- Inuit Qaujimajatuqangit
- The Guiding Principles of Inuit Qaujimajatuqangit

In 2008-09, the Department of Human Resources piloted two stand-alone Cultural Orientations in Iqaluit with a total of 35 participants. As a result of the evaluations and attendance rate, the department plans to continue offering stand-alone Cultural Orientation sessions on a regular basis in addition to the deliveries in conjunction with the Employee Orientation Program.

In 2008-09, the Department of Human Resources assisted 4 departments to deliver their customized Cultural Orientation sessions. The sessions were attended by a total of 53 participants

Learning & Development Program

The Department of Human Resources' Learning and Development Program consists primarily of courses, workshops, and seminars that are designed to enhance employees' knowledge, skills, and abilities in their current positions and to help prepare them for higher positions within the GN. Programming is designed to meet general training needs in such areas as computer literacy, financial management, administrative services, communication, and human resources management.

In 2008-09, a total of 532 employees completed learning and development activities sponsored by the Department of Human Resources. A total of 73 course deliveries took place (72 different types of courses were offered) in 9 communities across Nunavut (Cape Dorset, Cambridge Bay, Gjoa Haven, Igloolik, Iqaluit, Kugluktuk, Pangnirtung, Pond Inlet, and Rankin Inlet).

Inuktitut/Inuinnaqtun Language Training

In 2008-09, a total of 35 language courses were offered. A total of 171 employees completed language training offered in 6 different communities. To date, 1,237 self-directed "Inuktitut as a Second Language" CD-ROMs have been distributed to facilitate language learning.

In 2008-09, the Department of Human Resources piloted an "Inuktitut Enhancement Course" for first language speakers with staff from Department of Executive & the Department of Justice. The course consisted of classroom instructions once a week covering topics such as Family, Kinship, Terminology, and Naming. In addition to these, participants learned use of grammar & practice syllabic keyboarding.

Government of Nunavut Certificate in Financial Management

In partnership with Nunavut Arctic College and the Department of Finance, the Department of Human Resources has been offering the GN Certificate in Financial Management. This non-accredited program provides an introduction to the financial planning and control processes of the government. The series of six modules is used to orient new employees, to provide professional development for those currently in government, to prepare employees for advancement, or to provide a refresher course for middle and senior managers. There is an exam at the end of each seminar and those who complete and pass all modules receive a certificate. The modules include:

1. Government Organization in Nunavut
2. Program Planning
3. Financial Authority
4. Control Systems
5. Control Procedures
6. Financial Administration

In 2008-09, all financial management module materials were updated while the modules continued to be offered. Thirteen public servants have successfully graduated from the program.

Performance Management

The GN recognizes the importance of providing employees with a comprehensive performance management framework for the development of staff and the achievement of work expectations, as determined by the supervisor and employee.

The performance management guidelines focus on three areas: planning, coaching, and review. The guidelines incorporate the following Inuit societal values throughout the framework:

- *Aajiiqatigiinni* - Consensus in Decision Making;
- *Pilimmaksarniq* - Skills and Knowledge Acquisition; and
- *Piliriqatigiinni* - Collaborative Approach for a Common Purpose.

In the 2008-2009 fiscal year, performance management sessions were held in Cambridge Bay and Rankin Inlet. A total of 20 public servants participated in these sessions.

5. Job Evaluation

The Department of Human Resources' Job Evaluation division has the responsibility for evaluating all non-teaching position descriptions in the public service using the Hay Job Evaluation System to promote consistent, affordable, and fair rates of pay for public servants.

During 2008-2009, 1838 job evaluation actions were processed.

Bilingual Bonus

The responsibilities and language requirement described in the job description determine the eligibility of the position for bilingual bonus. Typically, the types of positions receiving the bilingual bonus provide direct service to the public. Some examples are; judicial officers, conservation officers, receptionists, instructors and nurses.

Employees, (other than employees assigned key duties of translation in their job descriptions), who are required to use two or more of the official languages of Nunavut shall receive a bilingual bonus of one thousand five hundred dollars (\$1,500.00) per annum. To qualify an employee has to demonstrate proficiency in the required languages.

There are 1,470 positions designated as bilingual in the Government of Nunavut (GN).

6. Employee Relations

The Employee Relations Division of the Department of Human Resources provides services to all Government of Nunavut (GN) departments and agencies. The Division supports senior managers, excluded employees, and unionized employees who belong to either the Nunavut Teachers Union (NTA) or the Nunavut Employees Union (NEU). The division also has the responsibility for negotiating collective agreements with the three recognized bargaining units for public servants, including those employed by Qulliq Energy Corporation. The division also provides the GN Workplace Health, Safety & Wellness Program and the employee recognition program.

Workplace Health, Safety & Wellness Program

The GN is dedicated to providing a safe and respectful workplace to all employees. The Workplace Health, Safety & Wellness Program offers the Employee & Family Assistance Program, as well as occupational health and safety training. There is a strong focus on Respectful Workplace training.

Employee & Family Assistance Program

The Employee & Family Assistance Program (EFAP) is a confidential, 24-hour, toll-free telephone counselling service. The service is available to all employees and their family members. Tele-Health counselling sessions are also available on request throughout the territory. These services are provided in partnership with Health Canada.

Health, Safety & Wellness Training and Information Sessions

The GN is committed to providing learning and development opportunities to improve employees' knowledge of health and wellness safety legislation. Training opportunities are available to employees throughout the territory to ensure the basic requirements of Nunavut's *Safety Act*.

Health, safety and wellness training includes:

- First Aid and CPR
- Harassment Investigations
- Occupational Health & Safety
- Respectful Workplace
- Critical Incident Stress Management
- Investigations
- Attendance Management

Collective Bargaining

Nunavut Employees Union

A collective agreement between the GN and the Nunavut Employees Union (NEU), covering approximately 1700 employees, expired on September 30, 2006. Bargaining sessions were held with the NEU throughout 2007-08. A mediator was appointed and mediation sessions were held in May 2008. A successful ratification process took place and a new agreement was implemented effective June 17, 2008.

Nunavut Teachers' Association

A collective agreement between the GN and the Nunavut Teachers' Association (NTA) covering approximately 660 employees was negotiated in the fall of 2005 with an expiration date of June 30, 2009.

Qulliq Energy Corporation

A collective agreement between the GN and Qulliq Energy Corporation (QEC) covering approximately 150 employees expired on December 31, 2007. Bargaining commenced in the fall of 2008 with further sessions planned in the 2009-2010 fiscal year.

Grievances and Staffing Appeals

Grievances

The grievance process is used to resolve disputes between employees, the unions, and the GN. The Department of Human Resources continues to work with departments, the NEU, and the NTA to improve grievance procedures and to allow for meaningful discussions in order to proactively resolve workplace issues.

Active grievances at March 31st, 2009

	Policy Grievance	Group Grievance	Individual Grievance	Total
NEU	5	7	59	71
NTA	0	0	0	0

Policy Grievance: refers to situations where the union brings forth a complaint alleging a breach of the terms of the collective agreement resulting from the employer introducing a directive or policy that contravenes the collective agreement.

Group Grievance: refers to situations where more than one union member files a grievance alleging that the employer has failed to recognize their collective rights pertaining to specific terms and conditions of the collective agreement.

Individual Grievance: affects the individual griever, filed by one person, either by that person, or by the union on behalf of that person.

Staffing Appeals

The Department of Human Resources provides a staffing appeals process to eligible appellants. The staffing appeals process allows an employee or beneficiary who has applied on a position in the NEU bargaining unit to request a review of the competition if the applicant feels that the competition was improperly conducted. In addition to Iqaluit, the department's three regional offices (Igloolik, Rankin Inlet, and Cambridge Bay) have the capacity to deliver staffing appeal hearings. An appeal hearing provides an objective review of the staffing process. There were a total of 24 staffing appeals in 2008-2009.

7. Human Resources Information and Payroll System

The Departments of Community & Government Services, Finance, and Human Resources operate and maintain an integrated Human Resource Information and Payroll System (HRIPS), also referred to as Personality 2000 or P2K. The staff in the human resource systems team continuing to support and improve the delivery of the leave managements system and other components of the P2K system.

The implementation of the Leave & Attendance (limited self-service) module is still ongoing with follow-up and review under way.

The systems group is also concentrating on systems upgrade testing and implementation over the next two years. Implementation of the additional modules including Time Scheduling, Labour Relations, Training & Development, Recruiting, Forecasting & Costing, and Safety & Health are under consideration and will be implemented based on needs assessment and service requirements

8. Workforce Profile

The information contained in this section of the report is extracted from the Human Resource Information and Payroll System¹ (P2K) and the *Towards a Representative Public Service* reports. Job competition information is extracted from the Department of Human Resources' job competition database². To provide for useful comparisons of workforce statistics, some of the graphs and charts contain historical data.

The Departments of Human Resources and Finance continue to enhance information collection mechanisms through the implementation of P2K.

In March 2009, the average employee was 43 years of age, earned approximately \$82,352 a year and had 6.5 years of service in the Government of Nunavut (GN). The average beneficiary male employee was 42 years of age, earned approximately \$69,725 a year and had 7.2 years of service. The average beneficiary female employee was 42 years of age, earned approximately \$71,062 a year and had 7.7 years of service. The average non-beneficiary male employee was 45 years of age, earned approximate \$95,328 a year and had 5.5 years of service. The average non-beneficiary female employee was 43 years of age, earned \$91,497 a year and had 5.5 years of service.

¹ Information on employee gender, salary, years of service, age, and pay group are for full-time equivalent (FTE) employees only.

² Job competition information does not include Nunavut Arctic College, teaching, and specialized health care positions.
